About Project Endeavor – *Project Endeavor was created when in July of 2010 the National Telecommunications and Information Administration announced CSD was awarded a multi-million dollar grant to make discounted high-speed Internet/broadband accessible to the nation's deaf and hard of hearing population. It's all part of this groundbreaking program that brings Internet access to deaf and hard of hearing people and works towards sustaining long-term access once Project Endeavor comes to completion. About CSD — *CSD (a.k.a. Communication Service for the Deaf, Inc.) was established in 1975, primarily to provide sign language interpreting services to deaf and hard of hearing adults in South Dakota. Today, CSD offers employment opportunities to nearly 2,000 individuals in 27 offices and locations all across the nation and internationally, providing a broad continuum of social and human services programs, as well as telecommunications relay and contact center services. CSD is a private nonprofit agency dedicated to providing quality services; ensuring public accessibility; and increasing awareness of issues affecting the deaf, hard of hearing and individuals with speech disabilities.
